Skills & Abilities

Proficient in JavaScript, Java, SQL, HTML5, and CSS3; experienced with React.js, Next.js, Tailwind CSS, Bootstrap, and Zustand; skilled in Visual Studio Code, IntelliJ IDEA, Git, GitHub, pgAdmin 4, and Jira; familiar with Ubuntu (Linux); and proficient in Microsoft Word, Canva, and Figma.

Experience

FRONTEND DEVELOPER | KAMNA TECNO PVT LTD.

JAN2025–PRESENT

- Developed and maintained responsive web applications using React.js, Next.js, JavaScript, HTML, CSS, and modern UI frameworks.
- Implemented reusable components, API integrations, state management, routing, and dynamic forms for various business modules.
- Enhanced application performance and user experience by resolving UI bugs, improving responsiveness, and ensuring cross-browser compatibility.
- Contributed to modules including authentication, employee management, products, orders, offers, coupons, customers, wallet, cart, and dashboards.
- Collaborated with designers, QA teams, and backend developers to deliver scalable, user-friendly, and business-focused solutions.

TRAINING | BACKEND DEVELOPMENT WITH NODE.JS | DUCAT

ONGOING

- Currently pursuing Backend Development training in Node.js at Ducat with a focus on scalable web application development.
- Working with Node.js, Express.js, MongoDB, REST APIs, authentication, routing, middleware, and CRUD operations.
- Developing backend solutions involving API development, database integration, error handling, and server-side validation.
- Building practical experience through projects, integrating frontend applications with backend services, and following industry-standard workflows.

Projects

BHARTIYAM E-COMMERCE PLATFORM | Internal Project |

Oct 2025 – Present

- Developed responsive and scalable e-commerce modules using React.js, Next.js, JavaScript, HTML, CSS, and Bootstrap for a quick-commerce platform.
- Built reusable UI components and implemented features including product listings, cart, checkout, authentication, offers, coupons, wallet, customer profiles, and order management.
- Integrated REST APIs and resolved complex frontend issues related to validations, state management, search, pagination, OTP workflows, and dynamic data handling.
- Enhanced user experience through responsive design, cross-browser compatibility, UI/UX improvements, performance optimization, and collaboration with QA, design, and backend teams.

BHARATIYAM ADMIN PANEL | Internal Product |

Dec 2025 – Present

- Developed and integrated REST APIs for admin modules including Employee Management, Orders, Customers, Coupons, Offers, Roles, Permissions, Banners, and Time Slots, ensuring seamless frontend-backend communication.
- Resolved complex UI/UX and functional issues related to CRUD operations, authentication, OTP verification, dynamic forms, validations, file uploads, search/filtering, pagination, and role-based access management.
- Enhanced platform performance, usability, and responsiveness through optimized state management, accurate API integration, cross-team collaboration, and delivery of stable, scalable, production-ready features.

Education

B.TECH | June2025| SCHOOL OF MANAGEMENT SCIENCES , LUCKNOW

Course – Computer Science and Engineering

CGPA – 7.01/10.0
